Mausoleum Planned for Vermont Ave. South of 182nd St.

Fred Waterman has requested a permit from the Los Angeles City Council to erect a mausoleum and crematory on South Vermont avenue south of 182nd street. The request was referred to the board of planning commissioners and planning committee last week.

Mr. and Mrs. Dale Gipe have just returned from a motor trip to Oakland where they spent Christmas at the home of Mr. Gipe's parents, Mr. and Mrs. Earl Gipe.

POULTRY SHOW OPENED NEW YEAR'S DAY

L. A. County Mid-Winter Poultry Show at Exposition Park Has 4000 Birds Entered

Plans are now completed for the fourth annual Los Angeles County Mid-Winter Poultry Show to be held at Exposition Park, Los Angeles, January 1-5, 1930. This big annual event has come to be looked upon as the mecca for poultry lovers from practically every section of the West Coast, and the keen interest that is being taken this year is indicative of its rapidly growing importance among Western poultrymen.

More than 4000 chickens, turkeys, water fowl, bantams, pigeons and rabbits will be on display in the big Armory building at Exposition Park when the doors swing open on New Year's day for the five day's show.

This great display of quality stock will represent the very cream of California flocks, although entries are expected from as far north as Puget Sound, and as far east as the Atlantic seaboard. The show is being conducted under the auspices of the Greater Southern California Poultry Association, a non-profit organization formed for the purpose of improving the type and quality of standard bred poultry.

Nationally known judges have been chosen to officiate in the various classes, including such noted experts as George Robertson, of the Division of Poultry Husbandry, Dominion of Canada; Wm. C. Talant, president of the Judges Section of the American Poultry Association, and Eric Smiley, of Seward, Nebraska.

Many state, district and national poultry meets will be held during the progress of the show, representing such well known breeds as Plymouth Rocks, Rhode Island Reds, White Leghorns, Australorps, and Wyandottes, thereby assuring much friendly rivalry among the breeders and exhibitors of these popular varieties. Much competition is also expected to develop in the Cornish, Orpington, Brahma, Jersey Giant, Minorca, Cochon, Ancona, Sussex and Polish classes. Scores of other varieties will also be out in goodly numbers to participate in the generous cash prizes, trophies, and special awards that are being offered to the winners. Assurance is given that the strong display of turkeys, bantams and pigeons will ever surpass the excellent show of last year.

As an educational exhibit the show is expected to draw large numbers of visitors here from various sections of the country who will take this opportunity of gaining first hand information as to the improvement that is being made in the further advancement of the great poultry industry.

Your Car's Operation As Well as Starting Depends on Battery

"Don't think of your battery merely as a convenient substitute for the starting crank," warns Harvel, proprietor of the Willard Battery Station at 1618 Cravens avenue, Torrance. "Your battery is working every minute the motor is running. You couldn't run a foot without it."

"Almost every day we hear of people who have worn out their arms and their dispositions trying to make the starting crank substitute for a live battery. It can't be done with the present day car that employs the battery for ignition as well as for starting and lighting. No battery, no spark, and there's no getting around it."

"Experienced motorists look to their batteries as carefully as they look to their gasoline supply. When the gravity of the battery solution begins to go down they come in for a check up. They find it a lot simpler and more satisfactory to change batteries in our service station, when necessary, than to find themselves stalled on the road or in their garage."

"I believe the time is close at hand when people will discard their old batteries as systematically as they discard the old oil in their crankcase, instead of inviting the inconvenience that invariably follows when they run them to the failing point. Batteries wear out just as surely as oil does. And at their present low prices it doesn't pay to try and squeeze out their last drop of performance, at the risk of having the car stall at a most inconvenient time."

FIVE YEARS AGO IN TORRANCE

As Told by the Files of This Paper

Despite the so-called depression that existed in Southern California last year, building permits in Torrance for 1924 reveal a steady and substantial growth. Permits in 1924 totaled \$1,092,260, and in 1923, they reached the high point in the city's history \$1,873,295. Postal receipts for 1924 were 39 percent over 1923.

L. V. Babcock is chosen Legion commander and C. B. Bell, adjutant.

The board of trustees last night unanimously passed a resolution instructing City Engineer J. J. Jessup to prepare proceedings and specifications for a new lighting system in the business and residential sections of Torrance. The crying need for a new city hall was also discussed.

Redondo boulevard is to be paved with concrete to the west city limits.

Drastic curfew and dance hall laws are proposed.

Our Winter Dresses

EIGHT YEARS AGO IN TORRANCE

As Told by the Files of This Paper

Mr. Dave Hoffman has purchased the entire stock of toys, dolls, wagons, desks, novelties, holiday goods, books, cards, and stationery of the Torrance Herald, the salesroom being as heretofore, the entire printing outfit of the Herald now occupying the composing room and press room in the rear.

Volstead law not popular, says board of trustees. Test of older sold in poolroom showed 3 7-10 percent alcohol.

The masquerade ball at the Legion hall was big success. Confetti battles, horns and ticklers were used by all. Mrs. Connell and Mr. Deininger won the prize for best waltzing.

Program at Torrance theatre, Wanda Hawley in "The Snob." Special Saturday, Pauline Frederick in "The Lure of Jade."
